**SPECIAL EVENT: TALK, DISCUSSION & BOOK SIGNING**

**MEDEA BENJAMIN**

### **DRONE WARFARE: KILLING BY REMOTE CONTROL**

Drone Warfare is a comprehensive look at the growing menace of drone warfare, with an extensive analysis of who is producing the drones, where they are being used, who are "piloting" these unmanned planes, who are the victims and what are the legal and moral implications. But this book is also a call to action, with a look at what activists, lawyers and scientists are doing to rein in the drones, and ways to move forward.

"Activist extraordinaire Medea Benjamin has documented how the U.S. government's use of drones to murder hundreds of innocent civilians in Afghanistan, Pakistan, Somalia and Yemen has increased the danger to our national security. Benjamin's *Drone Warfare* is the first book that reveals the vocal international citizen opposition that challenges the legality and morality of America's extrajudicial execution drones before they kill here at home." —Ann Wright, U.S. Army colonel (ret.). Former deputy chief of mission for U.S. embassies in Afghanistan, Uzbekistan and elsewhere.
